Post-Mortem on NIE 52-56:

Probable Developments in Pakistan,

dated 13 November 1956

I. Finding

No critical intelligence deficiencies were encountered in preparation of this estimate. However, we would have benefited by more detailed information on the following points:

- a. The personal, family, and political relationships of senior members of the armed forces and civil service with key members of the national or provincial legislatures and with other leading political figures.
- b. The activities and political contacts of mullahs and religious organizations.
- c. Communist relations with members of the Awami League and other parties, particularly in East Pakistan.
- d. Patterns of political interest and activity in rural areas, notably in East Pakistan.

II. Action

The members of the IAC are requested to take such action as they deem appropriate to deal with these problems.
